

Highlights:

- ❖ Suitable for rooms up to 20m²
- ❖ Power consumption max. 2.000 watts
- ❖ 3 power levels
Fan function
1.400 watts
2.000 watts
- ❖ With thermostat
- ❖ Ceramic heating element
- ❖ LED display
- ❖ Timer function
1-8 hours
- ❖ Oscillating
- ❖ Tilt protection

Security

Overheat protection, high-quality workmanship and a massive, tilt-proof stand ensures safety during operation.

SHX Ceramic-Columns heater with display

Our SHX ceramic column fan in a noble design is ideally suited to generate additional heat on colder days. The desired temperature can be set via the thermostat of the heater fan and can be read on the display.

With the timer function, you can individually adjust the SHX heating fan between 1 and 8 hours. Thanks to the practical oscillation function, the ceramic heater distributes the heat evenly in rooms up to max. 20m²

The main advantages of the SHX Keramik heating fan at a glance

- ❖ Higher Stability
- ❖ Quiet operation
- ❖ Low wind generation, as no strong supply of cooling air is required
- ❖ More durable than other versions
- ❖ Heating wires are insensitive to impacts
- ❖ Less odor as ceramics cannot burn dust or hair
- ❖ **Significantly lower infestation with spores, germs, bacteria and viruses**

Key point of allergy!

Due to the nature of the heater, the large surface of the ceramic heating element produces a temperature that does not cause any dust burning. As a result, less particulate matter is produced, which again means that ceramic heating fans are a good solution for fast heating, especially for allergy sufferers.

Advantages of ceramic heating fans

Since the heating elements of a ceramic heating fan are made of ceramic, this is significantly heavier than standard heating fans. The higher dead weight of the device offers the advantage of a particularly high stability.

Uptime

Ceramic heating fans have been designed to generate additional heat at short notice if necessary.

Delivery

- ❖ Manual
- ❖ Remote control
- ❖ Battery

Guarantee

- ❖ 2 years

The LED display with large display and control buttons allows easy operation with automatic as well as manual control.

Overheat protection, high-quality workmanship and a massive, tilt-proof stand ensure safety during operation.

The ceramic heaters of the SHX-Series combine allergy-friendly PTC heating technology and appealing Design.

Technical data

- ❖ Suitable for rooms up to 20 m²
- ❖ Mains voltage: 220-240 volts
- ❖ Max. Power consumption in watts: 2.000 watts
- ❖ 3 power levels: fan function / 1.400 watts / 2.000 watts
- ❖ Ceramic heating element
- ❖ Digital LED display
- ❖ Extra quiet volume dB(A): 54dB
- ❖ Stand unit
- ❖ Safety thermostat
- ❖ Remote control
- ❖ Tilt protection
- ❖ Timer function: 1-8 hours
- ❖ Overheat protection
- ❖ Oscillating
- ❖ Colour: black
- ❖ Product dimensions (WxHxD): 200x525x200 Mm
- ❖ Packaging dimensions (WxHxD): 205x565x205 mm
- ❖ Weight Net / Gross: 2,1Kg/ 2,4Kg

- ❖ EAN: 9 005 665 025 598
