

Equipment Highlights

Air conditioning without exhaust air hose

Cooling capacity 10 000 BTU
Heating capacity 8 000 BTU

Cooling, heating, de-silencing

low, medium, high

Dehumidification

The air conditioner dehumidifies the room air.

Swivel function

The cooling function distributes the cooled Air optimally into all areas of the room.

WiFi

Tuya app compatible with Amazon Alexa and Google Home

Timer

Adjustable 24 hours.

Environmentally friendly

Environmentally friendly R290 refrigerant

Voice Control

Environmentally friendly refrigerant R290 that protects the ozone layer

The Be Cool Monobloc air conditioner, slim, powerful and without outdoor unit is the solution for everyone.

Most air conditioners rely on hoses: split units require refrigerant to circulate between the indoor and outdoor units, and mobile monobloc air conditioners direct the exhaust air through a window to the outside.

Air conditioning without exhaust air hose – Does it work at all?

In short, YES. Our monobloc climate is combined in a modern and slim design outdoor and indoor unit. Only two wall holes for the air ducts with a diameter of 180 mm and two neutral ventilation grilles on the outer wall are required for flawless year-round operation.

Perfect installation, peak performance and maximum comfort with Wi-Fi connection and remote control option in combination with the low noise level of the monobloc air conditioning system allow optimal cooling of your premises under any condition.

INVERTER TECHNOLOGY

The inverter technology keeps the desired temperature constant in the room. In contrast to on/off devices, which first cool down to the desired room temperature and switch off. Due to the constant temperature fluctuation in an on-off system, the feeling of space is rather poor. In addition, the on/off system consumes a high starting current due to the constant switching on and off of the compressor.

Dehumidification

In addition to cooling the air, the air conditioner differs from conventional fans in that the cooled Air is so dehumidified and cleaned. As a result the indoor climate is improved by two further parameters relevant to the customer's condition.

Scope of delivery

1x Remote control
Incl. battery
1x User manual

Guarantee

2 years

With our Be Cool Monobloc air conditioner, in return for a split air conditioner with outdoor unit, you retain the beautiful look of your exterior facade .

Specifications

- Cooling capacity (WTU/h): 10 000 BTU
- Cooling capacity (W): 2 930 watts
- Heating capacity (BTU/h): 8 000 BTU
- Heating capacity (W): 2 350 Watt
- Power supply: 220V-240V/50Hz
- Rated power input (cooling) W: 1 120 watts
- Rated power input (heating) W: 745 Watt
- EER W/W: 2.6
- COP W/W: 3.1
- Dehumidification capacity (L/h): 1 l/h
- Air flow (m3/h): 500 m³/h
- Indoor sound power dB(A): 59 dB
- Internal sound pressure dB(A): 31 dB
- Product dimensions (mm): 575 mm x 205 mm x 1000 mm
- Packaging dimensions (mm): 665 mm x 335 mm x 1120 mm
- Net weight(kg): 42,5 kg
- Gross weight(kg): 48,5 kg
- Application area (m³): 90 m³
- Wall bore diameter 180 mm

- EAN: 9005151002256

Included accessories
