design
- ❖ Wifi and app control
- ❖ Wall and ceiling
mounting suitable
- ❖ only suitable for
protected outdoor
areas: covered terraces
with side protection,
etc.

Contents:

- ❖ Remote control
- ❖ Mounting accessories
- ❖ Operating instructions

With the SHX dark radiant heater belongs a disturbing in the insect-attracting light of the past.

The SHX infrared dark heater has a maximum heating power of 1800 watts and convinces with a high-quality, robust workmanship made of aluminum. The internal thermostat allows convenient setting of the target temperature in the range of +5 to +45 degrees.

Due to the attached veneer, the infrared rays of the dark radiators are not so intense, the dark radiator only emits heat and no light. Complete silent operation and no dust development - perfect for noise-sensitive areas and allergy sufferers. In practice, users therefore find the heat generated by dark radiators more pleasant.

Thanks to protection class IP 54, the robust, powder-coated aluminum housing is weather-resistant for indoor use and in conservatories. The design allows easy wall or ceiling installation.
