Operating instructions

High-intensity patio heater from SHX

The SHXTH2000GF patio heater uses an innovative GOLDEN LAMP heat technology. This allows it, to heat up its environment really fast. Due to the inner reflector, the terrace spotlight emits an additional 20% more heat.

The heater can be mounted both on the wall and on the ceiling. The SHX spotlight has an adjustable angle of inclination. In addition, it convinces with its compact and robust structure, which is suitable for indoor and outdoor use.

The 2 heating levels can be conveniently adjusted with the supplied remote control. So you can comfortably and easily enjoy the warmth

The spotlight is certified with protection class IP 55, so it can also be used outdoors (e.g. in the balcony or terraces).

Safety and performance come first at SHX – see for yourself.
