

BE COOL

PREMIUM SPLIT AIR CONDITIONER - BCP18SK2201QW QC

Equipment Highlights

LED Display

Easy-to-read and bright LED display with minimal power consumption.

Saver

The additional function allows energy savings due to lower power consumption.

Timer

12 / 24 hours mode.
Switch on and off according to the desired time.

Dehumidification

Ideal for dehumidification, without temperature difference.

R32 Refrigerant

Is more environmentally friendly and energy-saving than some other refrigerants.

Quiet

The volume level can be reduced by low air speed or sleep mode.

Auto Restart

After power off or a power outage, the selected program will continue.

Premium Cooling

QUICK CONNECTOR

Cooling capacity: 18.000 BTU

max.160m³ - max.64m² at 2.5 meters room height

Whether cooling, heating or dehumidifying an air conditioning system is always a worthwhile investment for our well-being. Especially in the bedrooms, air conditioners are in great demand because there should be a feel-good climate to start the new day as rested as possible. Physical well-being increases our performance.

An optimally tempered and dehumidified living space is crucial for our well-being. Especially the dehumidification function is very noticeable even at the same temperature. For example, an air-conditioned room with 26°C differs significantly from a non-air-conditioned room with sultry room air. Roof extensions and attic apartments can reach unpleasant temperatures as early as spring. Dissipating the heat in a short time often proves to be very difficult. With an air conditioning system from BE COOL, you can solve this problem and look forward to an improved indoor climate of tomorrow today.

Gentle Wind

The airflow becomes gentle and soft, providing the user with excellent airflow comfort.

Heat pump principle

This comfortable and energy-saving air conditioning is also known as an air-to-air heat pump. There is a lot of unused energy hidden in the air. BE COOL devices pick up the energy and process it. Invest in a free energy source today and benefit from the vitalizing effect of a perfectly air-conditioned and dehumidified living or commercial space.

Scope of delivery

1x Outdoor unit 18.000 BTU
1x Indoor unit
1x 4m copper cables
1x vibration damper /
Underlay plates
1x User manual
1x Remote control

Guarantee

2 years

Premium Features

- **3D Air Flow Vertical/Horizontal Auto Swing:**
The airflow is distributed left/right and up/down
- **Super Silent Mode**
Operation with only 18 dB volume
- **Frost protection function (+8°C)**
- **Temperature measurement via the remote control**
Ensures optimal temperature measurement directly in my environment
- **Cooling function up to -15°C outside temperature possible**
- **Comfort Cooling:**
When cooling, we avoid too much dehumidification
- **5 fan stages:**
Low/Middle/High/Turbo/Mute
- **Turbo cooling function and heating function**
- **Parental controls or parental controls Key lock for the remote control**
- **Backlight display on the remote control**
- **Louver position memory**
The opening angle of the slats is stored when switched off
- **Gold Fin**
Long-lasting lotus effect - Antibacterial - Energy-saving - Durable
- **I Set**
Memory function of the remote control
- **Self-cleaning function**
- **Healthy filters Silver Ion / Activated Carbon / Catechin Filter / Vitamin C Filter**
improve air quality

Specifications

- Cooling capacity: 18.000 BTU
- Coolant: R32
- SEER / SCOPE: 6.1 / 4.0
- Cooling capacity: max. 5,100 watts
- Heating capacity: max. 5.100 watts
- Energy class: A++
- Room air circulation: 800 m3 /h
- Indoor sound power: 36-53 dB (A)
- External sound power: 65 dB (A)
- Internal sound pressure: 27-43 dB (A)
- External sound pressure: 55 dB (A)
- Power supply: 220-240V~/50Hz
- Cooling: 1.7~12.0A Heating: 1.7~13.0A
- Field of application: Max. 160 m³ (* 64m²) * at 2.5 meters room height
- Internal unit dimensions: mm 910 x 294 x 206 (W x H x D)
- External unit dimensions: mm 853 x 602 x 349 (W x H x D)
- Weight indoor unit: 10.5 medical history
- Weight outdoor unit: 35.5 medical history

EAN indoor unit: 9005151001297

EAN outdoor unit: 9005151001303

This device must be installed by a certified specialist company, according to the climate protection regulation EU regulation 517/2014 (implementing regulation No. 2015/2067). We would like to point out that the installation prices and the installation times may differ due to different regional specialist companies.
