

### Equipment highlights

6.5" solid rubber tyres

400 watt motor power  
(2 x 200 Watt)

Up to 15 km\* range

Up to 12 km/h\* max.  
speed

Loadable up to 100 kg

### Balancing safely and cool through life

Make a statement with this sleek and cool design. It looks great and is a lot of fun to ride.

The built-in mechanism allows the rider intuitive, almost floating and effortless control of the balance board.

Safety has the highest priority. There is an automatic switch-off as soon as contact with the ground is lost as well as in case of falls.

The 6.5" tyres are non-slip, durable and puncture-proof. With the right practice, riding on uneven ground is possible. Just climb on and you're ready to go! You lean into the direction of travel and the ride begins. The non-slip treads allow for very safe movement.

The Balance Board Carbon stands for the highest demands paired with a safe ride for your children.

### Powerful drive

The balance board is equipped with two electric motors that deliver 2 x 200 watts of power. You can reach a top speed of up to 12 km/h. A range of up to 15 km is possible with one battery charge.

### Puncture-proof tyres

The solid rubber tyres offer safety. You can drive everywhere without any problems and even have a perfect driving experience on uneven or bumpy terrain. They will not run out of air even if there is a sharp object in the way.

### Scope of delivery

- Balance Board
- Operating instructions
- Charger

### Warranty

- 2 years, excluding wear parts
- Battery: 6 months

### Great performance and sleek design

The motor power with 400 watts (2 x 200 watts) brings you safely to your destination with a top speed of 12 km/h. With this design you are cool on the road. The 6.5" solid rubber tyre is maintenance-free and there is no chance of a flat tyre.

The aluminium rim design not only looks classy, but also offers high stability and robustness.

### Safety first

If it gets a little darker or you are out and about in the twilight, you can make yourself easily visible thanks to the lighting.

### Technical data

- 6.5 inch solid rubber tyres
- Self-calibrating
- Motor power 400 Watt (2 x 200 Watt)
- Battery type: 4.0 Ah, 36 V
- Maximum speed: 12 km/h\*
- Maximum range: 15 km\*
- Maximum load capacity: 100 kg
- Charging time: 3 hours
- Charger: Input AC 100-240V / Output DC 42.0V 1.5A
- LED status lights
- LED light on front
- Dimensions - (H x W x D): 595 x 190 x 180 mm
- Weight: 6.9 kg
- Colour: Carbon design
- Internal Art. No.: BCB6522CB
- EAN: 900515100 2027

\*\* Actual range depends on various factors such as load, temperature, wind speed, road conditions and driving style.
