

## Equipment Highlights

### Air Purifier

The suctioned air is washed through the filter. Dust, pollen, mites as well as bacteria and unpleasant odors are filtered out of the air.

### 3 Speed Levels

low, medium and high

### Eco-Friendly Operation

This type of cooling is a completely natural and cost-effective cooling method. Air coolers reduce the room temperature using the natural principle of water evaporation.

### 3 Wind Modes

Natural, normal and sleep mode

### Pivot Function

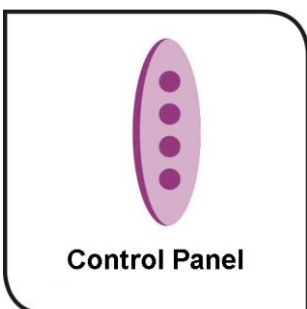

The pivoting function distributes the cooled air optimally into all areas of the room.

### Cooling Effect

Cools the room air by up to 8°C

incl. Cool Pack

Control Panel

### Refreshing 3in1 air cooler with air cleaning and air humidification function

The powerful air cooler ensures a pleasant cooling in your home.

Thanks to the innovative, natural cooling technology, the device is energy-saving and releases cooled and cleaned air into the room. Ideal for living areas where no expensive air conditioning is necessary.

3 speed levels combined with the various functions (cooling, ventilation) give you complete freedom over the intensity of the cooling.

## Air Cooling & Honeycomb filter

Air coolers suck in the heated room air on one side and then pass it through a honeycomb filter containing cold water as coolant. The water in the cooling system evaporates slowly, absorbing heat from the room air flowing through it. A fan then blows the now cooler room air back into the room.

## Air cleaning & Humidification

In addition to cooling the air, this air cooler differs from conventional fans in that the air is humidified and cleaned. After the summer season, the unit can be conveniently used as a humidifier.

## Scope of delivery

2x Cold packs  
1x Instruction manual

## Warranty period

2 years

**Honeycomb filter**

**Extractable Watertank 4,5l**

## Air Cooler Filter

It is recommended to change the filter once a quarter for hygienic reasons.

The Art. No. for your suitable replacement filter is the **F-SHE5AC2005**

**Cold Packs**

**Air Cooler Operating Principle**

## Technical data

- Unit type: Air cooler
- Cooling function by atomization/evaporation of water
- Air purifier function (cools the room up to 8°C)
- Robust housing with rollers
- Pivot function
- 2 Cool batteries included in delivery
- Water tank capacity: 4.5 l
- Speed levels: 3
- Power consumption in watt: 80W
- Input voltage: 220V - 240V 50Hz
- Color: White
- Dimensions W/H/D: 260x570x240 mm
- Weight: 4,0 kg
- EAN: 9005665024423
