

Ceramic heating fan

SHE19KH2000LD

With its 2000 watts, the heating fan quickly brings your bathroom to temperature in the morning. You will hardly hear about its use: even at the highest power level, the device is satisfied with 47 dB(A).

Use the ventilation function of the device on hot summer days. The pleasantly cool air flow makes the stay in enclosed spaces bearable. The power consumption for this is only 20 watts.

Countdown timer: Simply select the time (1-8 hours) and the device turns off automatically after the time has elapsed. You save on electricity costs, and it's safer.

Properties

- Quick heater
- 2000 Watts
- Low operating noise 47.5 DBA
- Two heating stages
- Temperature control 10-35°C
- Oscillation function
- Timer function

Security

- tested & certified
- Anti-tilt protection
- Overheat protection
- PTC Heating Element

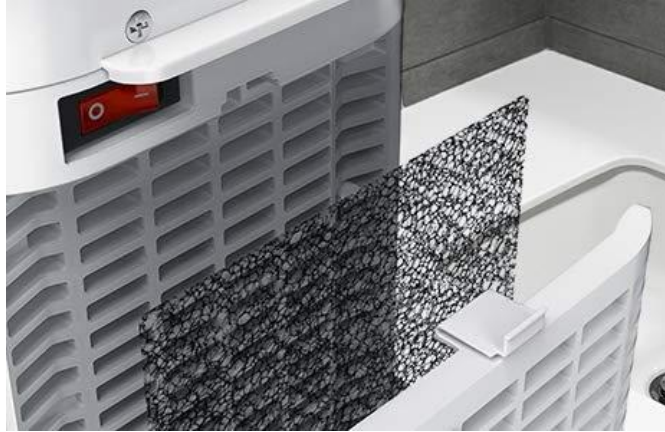

On cold days, the SHE heating fan sends pleasant heat to your home. Its high-quality ceramic heating elements ensure that it is at your service for a long time. Set the desired temperature continuously on the device, and the oscillation to it, then the device distributes the heat with a quiet fan in the room. The heating fan is still quite quiet (47 dBA) even in the highest power level and provides safety with a thermal fuse, overheating and overturning protection. When it gets cold, the SHE heater fan is at your side.

Österreichische Marke

Technical data

The heating fan from SHE provides pleasant warmth in the bathroom, the conservatory or the garage and creates a pleasant indoor climate. With the two power levels, the digital temperature control and the switchable oscillation, you determine where and how much heat is distributed in the room.

Security

Safety is at top priority at SHE. The heating fan is equipped with an overheat protection, in addition a thermal fuse and a tipping protection is installed. In this way, risks are prevented from the outset.

- Individually adjustable temperature from 10 - 35°C
- Robust PTC heating element/compared to standard heating wires more resistant to impacts
- Safe stand due to higher weight
- High safety due to overheat protection
- Particularly suitable for allergy sufferers due to the anti-dust filter (less particulate matter)
- Creates heat very quickly and effectively in a short time
- Long service life due to durable ceramic elements
- Flexible remote control using IR remote control
- Timer (time function): Selectable from 0-8 hours (after which automatic shutdown)
- Uniform distribution of heat in space by oscillation function(40°swivel)
- Silence function: Low-noise operation (only approx. 47.5 dBA in the highest level)
- So suitable for larger rooms (up to max. 30m²)
- Anti-dust filter easy to change and clean
- Material: ABS + ceramic (heating elements)
- Colour: white/black
- Dimensions (H x W x L): 42 x 18 x 14 cm
- Weight: 2350g
