

## Properties

- Quick heater
- 1500 watts
- Low operating noise
- Two heating stages
- Temperature control 10-35°C
- Oscillation function

## Security

- tested & certifiziert
- Anti-tilt protection
- Overheat protection
- PTC Heating Element

- The latest PTC technology, the built-in high-quality ceramic heating element, can effectively heat the air within 3 seconds with this mini heater and immediately feels the heat-winter embrace in the cold.
- Airing instead of heating. Use the device as a fan on hot summer days. Simply set a lower temperature on the device than the actual temperature. Then the fan runs in single operation and consumes only 4.8 watts.
- Security is a top priority at SHE. This is why the heating fan is equipped with a thermal fuse, overheating protection and overturning protection, ensuring triple safety.

On the top of the heater there are 2 buttons, one for setting (800 watts, only 1500 watts blower setting), and the other is an adjustable thermostat that can be set with a hot level conveniently one.

SHE uses high-quality flame-retardant materials. The device switches off automatically when the radiator reaches 85°C.

## Technical data

The heating fan from SHE provides pleasant warmth in the bathroom, the conservatory or the garage and creates a pleasant indoor climate. With the two power levels, the digital temperature control and the switchable oscillation, you determine where and how much heat is distributed in the room.

### Security

Safety is atop priority at SHE. The heating fan is equipped with an overheat protection, in addition a thermal fuse and a tipping protection is installed. In this way, risks are prevented from the outset.

- Two performance levels
- Room thermostat with infinitely variable digital temperature control 10-35 oC
- Ventilation function for summer months
- Timer with countdown function 1-8 hours
- Durable PTC Ceramic Heating Element
- Switchable oscillation (40°)
- Quiet operation in both power levels
- Overheat protection
- Thermal fuse
- Overturning protection
- 230 V AC input
- 1500 W Total power
- Consumption level 1: 800W
- Consumption level 2: 1500W
- Protection: IP21 - Protection against vertically falling drip water
- Controls: On/Off switch, Oscillation switch, manual temperature selection
- Colour: grey
- Dimensions - (H x W x D): 272 mm x 180 mm x 130mm
- Weight: 1450g

### Scope of Delivery & Warranty

Fan heater

User Manual ( English )

Warranty: 2 years
