Scope of Delivery

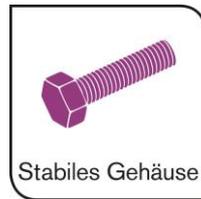

1x Instruction manual

Warranty Period

2 years

2 Stufen

Stabiles Gehäuse

Perfect air circulation with the SHE wind machine in every room, whether living room, kitchen or bedroom

The 18cm wind machine is ideal for small to medium sized rooms at home, in the office or in garages. Take care on warm summer days with this fan for cool air at work or in your own four walls.

The special arrangement of the lamellas of the ventilation grille creates an optimal and pleasant air circulation in the room.

In addition, you can choose between two speed levels for cooling, in order to ensure an effective and optimal air circulation in the room in summer or winter. A built-in carrying handle allows you to easily take the fan with you wherever you need it.
