Includes

ION filter
The anti-bacterial effect of silver ensures optimum water quality.

HEPA filter
This cleans the room air and frees it from bacteria, germs and viruses.

The purer the aroma oil, the more effective it is.

Essential oils are particularly effective and productive. Provided the quality is right. Therefore,

Wellness atmosphere for your home!

The decorative humidifier and diffuser by BE COOL combines three functions in one device:

Air humidification cold air & warm air + air purification + aroma diffuser.

Air humidification

With its micro-fine spray mist, it humidifies the room air and thus ensures a fresh room climate.

Air purification

Thanks to the integrated filters (limescale filter, UV filter, ION filter and HEPA filter), the BE COOL humidifier is particularly allergy-friendly. It cleans the room air and water and frees them from bacteria, germs, micro-organisms and viruses.

Aroma diffuser

The aroma function is easy to activate. Put a few drops of your favourite oil in the aroma compartment and activate the humidifier.

A room fragrance has an enormous influence on body and mind. It can invigorate the organism, awaken pleasant memories or stimulate creative thinking. Moreover, it creates a cosy atmosphere in the bathroom as well as in the bedroom or living room and invites you to relax.

The compact BE COOL humidifier and diffuser can be used with or without aroma oil.

Noble wood look

Enhancement for every living room

the bottle should be labelled "One hundred percent essential oil".

Volume

Modern ultrasonic nebuliser technology for air humidification is almost silent, making it perfect for your bedroom.

Nebuliser technology

Thanks to effective high-frequency technology, the water is converted into micro-fine mist and released into the room air by a fan.

Filter replacement

To ensure optimal function, we recommend replacing the filter every 2 months.
