Ideal for transport for all 6.5" balance boards

Carrying and storing

The backpack is made of strong and durable nylon. It has a zipper that provides optimal access to the balance board. It protects against damage to the paint.

Water protection

The backpack is water-repellent and thus protects against moisture. This means that the balance board always stays dry and clean.

Mesh pocket

The additional mesh pocket is the ideal place to store accessories, such as the Balance Board's charging cable. It can also be ideally used for drinking bottles, wrist protectors, sunglasses, etc.

Adjustable shoulder straps

The carrying handle can also be used to hang the backpack. For comfortable carrying into the backpack equipped with an adjustable shoulder strap.
