

Super  
**Silent**

Timer

Fernbedienung

Reichweite  
**15m**

## Equipment Highlights

### 15 Meter Range

A normal stand fan has an average range of only 5 meters

### Rotates up to 360 degrees

30, 60 or 360 degrees

### Off Timer

1-7 hour off timer

### 2 Wind Modes

Nature und Constant

### Oscillation Function

The vibrations help the cold air to reach different areas of the room.

### Super Silent Mode

In the lowest level only 32dB

### Cooling effect

Due to the strong performance of the tower fan

The **Be Cool floor standing fan** with its elegant design circulates air with a range of **up to 15 meters**.

The pivoting of the head is adjustable on 3 levels: 30, 60 or 360 degrees. Furthermore, the head can be moved upwards to blow cool air to the wall ceiling.

Two different wind modes (natural and constant), each of which can be divided into three speed levels, ensure individual cooling. To avoid continuous operation, a switch-off time of **1-7 hours** can be set with the timer.

The absolute highlight is the brushless motor, which is embedded in a high-precision bearing so that the noise generation is reduced by **30%**. The fan is astonishingly quiet due to its fan blades. These are designed to actively avoid vibrations to reduce the noise to **32dB**.

Extra leise mit 32dB in der kleinsten Stufe

**Safe and Easy**

The standing fan is easy to operate at the fan head. The included 24V power supply unit reduces the electricity costs compared to a floor fan operated at 230V.

The absolute highlight is the brushless motor. It is embedded in a high-precision bearing and reduces noise by 30%.

The swivel function is adjustable in 3 settings. 30, 60, or 360 degrees. Furthermore, the fan head can be directed towards the ceiling.

The fan is astonishingly quiet thanks to its rotor blades. These are designed to avoid vibrations. This technology reduces the noise level to 32dB.

**Scope of Delivery**

- 1x remote control (1x button cell 2032)
- 1x floor fan
- 1x power supply unit
- 1x screws and tools
- 1x instruction manual

**Warranty Period**

2 years

Comfortable controls on the fan head allow a user-friendly operation.

**Technical Data**

- Power: 20W
- Nominal voltage: 24V
- diameter: 31cm
- 7 rotor blades Super Silent
- Maximum speed 4.3m/s
- Maximum volume: 32 - 58dB (A)
- wind mode: forest wind (high) / forest wind (low) / sleep wind
- Constant mode: low, medium and high
- Rotation: 30°/60°/360° left and right
- Dimensions (HxWxD): 1195 x 255 x 212 mm
- Weight: 3,0kg
