- **High efficiency particulate filter**
HEPA filter H13 PM 2.5
- **Ioniser**
integrated
- **Quiet operation**
max. 49 dB(A)
- **Functions**
Three power levels, auto mode and air quality indicator

Beautifully designed for the best air quality with the BC22LR2105 design air purifier from BE COOL

Healthy air to breathe is an important basis for our health. The air indoors is usually much worse than outdoors, this has been proven by numerous studies. With BE COOL air purifiers, you make a valuable contribution to the cleanliness of your indoor air and to the health of your family.

The BE COOL air purifier offers you three manual ventilation strengths (low, medium and high) and an automatic wind adjustment mode. CADR with up to 200 m³ / h can effectively cover a 24 m² area.

High efficiency HEPA13 filter

This can filter 99.95% of fine dust, pet dander, pollen, mites, air pollution, particulate matter (PM 2.5) and ultra-fine particles. It is therefore particularly suitable for people with allergies and asthma, pet owners and smokers.

Activated carbon filters

These can remove pet odours, kitchen smoke, cat litter odours, smoke odours and neutralise formaldehyde and other harmful substances.

Scope of delivery

- Air purifier
- 3-in-1 filter
- Operating instructions

Warranty period

- 2 years

Specifications:

- CADR (flow rate of purified air): 200m³/h
- Consumption 42 Watt, 220-240 Volt
- Operating noise level: max. 49 dB(A)
- Filter change alarm and air quality indicator
- Auto mode
- Ioniser
- Timer (8 hours)

Dimensions:

- Product (W x H x D): 327 x 220 x 558 mm
- Product weight: 4.9 kg
- Sales box (W x H x D): 385 x 270 x 605 mm
- Sales box weight: 6 kg
