

used for Be Cool BC54LRLB2101

Filter set for air purifiers & humidifiers BC54LRLB2101

This high-quality air purifier filter makes it easy to change the filter with your air purifier. The filter set consists of HEPA13, silver ions, PET, activated carbon filter, cold catalyst

The HEPA13 filter can filter 99.95% particulate matter, animal hair, pollen, mites, air pollution, PM 2.5 and ultrafine particles. Is very helpful for people with allergies and asthma, pet owners, smokers and children.

Activated charcoal filters can remove pet odor, kitchen smoke, cat litter smell, smoke odour and neutralize formaldehyde and other harmful substances.

Cold catalysator filter neutralizes harmful environmental gases already at room temperature.

After 6 months or after 1,500 operating hours, you want to change (device displays a filter change)
