

Used for Be Cool BC52LR2101

HEPA13 and active filter for Be Cool air purifier BC52LR2101

This high-quality air purifier filter makes it easy to change the filter with your air purifier.

The HEPA13 filter can filter 99.95% particulate matter, animal hair, pollen, mites, air pollution, PM 2.5 and ultrafine particles. Is very helpful for people with allergies and asthma, pet owners, smokers and children.

Activated charcoal filters can remove pet odor, kitchen smoke, cat litter smell, smoke odour and neutralize formaldehyde and other harmful substances.

After 6 months to 9 months change (device indicates a filter change)

Delivery
