Scope of delivery

Filter set consisting of

- HEPA13 filter and
- activated carbon filter

Warranty period

- 2 years

HEPA13 and activated carbon filter for Be Cool air purifier BC52LR2101

This high quality air purifier filter makes changing the filter on your air purifier a breeze.

The HEPA13 filter can filter 99.95% of fine dust, pet dander, pollen, mites, air pollution, particulate matter (PM 2.5) and ultra-fine particles. It is therefore particularly suitable for people with allergies and asthma, pet owners and smokers.

Activated carbon filters can remove pet odours, kitchen smoke, cat litter odours, smoke odours and neutralise formaldehyde and other harmful substances.
