

used for Be Cool BC22LR2105

HEPA13 and active filterfor Be Cool air purifier BC22LR2105

This high-quality air purifier filter makes it easy to change the filter with your air purifier.

The HEPA13 filter can filter 99.95% particulate matter, animal hair, pollen, mites, air pollution, PM 2.5 and ultrafine particles. Is very helpful for people with allergies and asthma, pet owners, smokers and children.

Activated charcoal filters can remove pet odor, kitchen smoke, cat litter smell, smoke odour and neutralize formaldehyde and other harmful substances.

After 6 months to 9 months or after 2,200 operating hours should be changed (device indicates a filter change)
