

Equipment Highlights

500 watts engine power

Up to 40 km* range

3 speed levels

10" tubeless pneumatic tires

Disc brakes front & rear

Double suspension with front & rear shock absorber

removable, height-adjustable & spring-loaded seat

Loadable up to 120 kg

LED-Display

Up to 25 km/h

removable battery

BE COOL eSC-P2 - Premium quality for every area

The perfect feeling of driving and safety results from the unique geometry between the handlebars and the side treads. This arrangement sets new standards for premium e-scooters in terms of driving safety.

Ideally matched off-road and robust high-end components are installed especially for this design. A trip with the BE COOL eSC-P2 becomes an impressive experience – whether it's a sporty ride on the two separate tracks or a comfortable ride with the height-adjustable and spring-loaded seat.

The powerful and maintenance-free 500 watt hub motor impresses with its high torque and accelerates to the maximum permissible speed of 25 km/h in seconds. He also masters inclines of up to 20 degrees with flying colours. The 13 Ah/48 volt battery is removable. This makes it easier to load regardless of the location of the scooter. The fun is to enjoy up to 40 km.

Perfect on all routes.

The perfectly coordinated full suspension with the double shock absorbers on the front and rear wheels easily absorbs bumps and bumps on bumpy road surfaces and thus contributes to extremely smooth and safe driving behavior. Even tram rails are not a dangerous obstacle for the wide tubeless 10 inch off-road pneumatic tires.

Safety is a top priority for BE COOL.

The special frame construction of the BE COOL eSC-P2 is very robust and resistant. It is made of high quality aluminum. This dual braking system meets the highest safety standards. The highly efficient disc brake on the front and rear wheel can be operated independently of each other. If it gets dark, then bring the LED headlights home clearly visible and safe.

Experience the new dimension of movement and enjoy every ride with the BE COOL eSC-P2.

Reliable braking system

The BE COOL eSC-P2 is equipped with disc brakes on the front and rear axles. The brakes can be operated independently. With this braking system, you can safely stop even in difficult situations.

Revolutionary chassis

The special frame construction of the BE COOL eSC-P2 in combination with a double suspension front and rear as well as the tubeless pneumatic tires are perfect for any surface. Unevenness and potholes are easily recorded. The comfortable ride becomes a pleasure, especially if you mount the spring-loaded seat.

- E-scooter
- Manual
- Charger

Guarantee

- 2 years, excluding wearing parts
- Battery: 6 months

Österreichische
Marke

Large display & ignition key

The display is very clear and shows all important information at a glance. The current speed is displayed large. In addition, the set speed level, the kilometers driven and the battery level are displayed.

The scooter can be switched on via a key.

Design for safe driving on all routes

The BE COOL eSC-P2 has two foldable foot rests for very sporty driving. Thanks to its mechanical shock absorbers on the front and rear axles, it easily swallows potholes. The 10 inch tubeless off-road pneumatic tires provide special grip. The two disc brakes provide an excellent braking effect on both the front and rear tires.

Technical data

- Engine power 500 watts
- Maximal range: 40 km*
- Battery type: 13.0 Ah, 48 V
- Watt hours: 624 Wh
- Disc brake front and rear
- Double suspension with shock absorber front and rear
- 3 speed levels
- Maximal speed: 25 km/h
- 10 inch tubeless pneumatic tires
- Removable seat
- Removable battery
- LED-Headlights front and rear
- LED-Display
- Horn
- Max. load capacity: 120kg
- Charging time: 7 hours
- Charger: Input AC 100-240V / Output DC 54.6V 2.0A
- Gross dimensions - (H x W x D): 1.250 mm x 310 mm x 700 mm
- Gross weight: 34 kg
- Colour: green
- Internal article.no: BC10ESC62412PL
- EAN: 9005151000757

* Test variables for the range: person: 70 Kg, weather: dry, 25 C° and windstill, continuous speed of 15 km/h, track condition: flat, smooth asphalt

The actual range depends on various factors such as load, temperature, wind speed, road conditions and driving style.
