

## Highlights

- **3 operating levels**  
low, medium, high
- **Internal swivelling function**  
optimally distributes the cooled air to all areas of the room
- **Cooling effect**  
cools the room air drawn in by up to 8°C
- **Air purifier**  
the sucked-in air is washed through the filter. Dust, pollen, mites, bacteria and unpleasant odours are filtered out of the air
- **Anion**  
Ionisers in air purifiers generate negatively charged ions (anions), which combine with positively charged dirt particles in the room air to form larger clusters

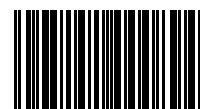

### 4 in 1: Cooling, humidifying, ventilating, repelling insects

Our all-rounder - the BE COOL BC9.3AC2201IKF - not only provides cool air on hot days. For technical reasons, the air is also humidified, evenly distributed and annoying insects are driven away.

### Functional overview

- Air cooler and humidifier (easy to fill water tank)
- Air purifier with ioniser (anion)
- Insect repellent
- Touch control panel

Repels not only mosquitoes, of course, but also the Austrian gnats ;-)
