

**Equipment Highlights**

**Top Loader**

The water is refilled on the top side.

**3 Speed Levels**

low, medium and high

**Pivot Function**

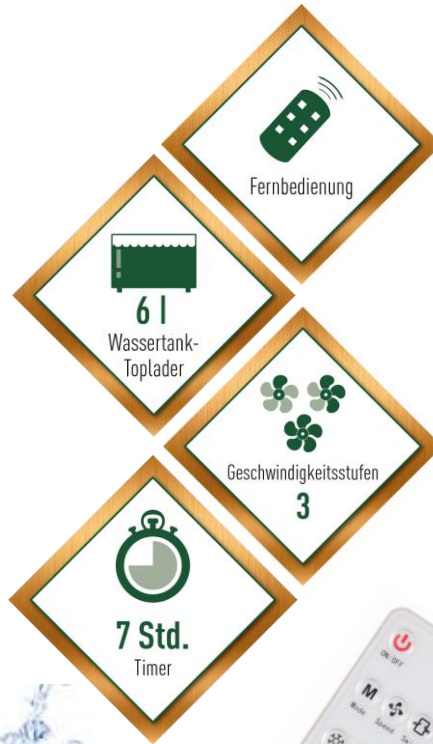

The pivoting function distributes the cooled air optimally into all areas of the room.

**Cooling Effect**

Cools the room air by up to 8°C

**Air Purifier**

The suctioned air is washed through the filter. Dust, pollen, mites as well as bacteria and unpleasant odors are filtered out of the air.

**Refreshing 3-in-1 air cooler fan with air cleaning and humidification function and three performance levels.**

The powerful air cooler ensures a pleasant cooling in your home.

Thanks to the innovative, natural cooling technology, the device is energy-saving and releases cooled and cleaned air into the room. Ideal for living areas where no expensive air conditioning is necessary.

3 speed levels combined with various functions (cooling, ventilation) give you complete freedom over the intensity of the cooling.

Another highlight is the filling of the water tank. With the Top Loader function, the water is conveniently filled from above.

**Air Cooling & Honeycomb filter**

Air coolers suck in the heated room air on one side and then pass it through a honeycomb filter containing cold water as coolant. The water in the cooling system evaporates slowly, absorbing heat from the room air flowing through it. A fan then blows the now cooler room air back into the room.

**Air cleaning & Humidification**

In addition to cooling the air, this air cooler differs from conventional fans in that the air is humidified and cleaned. After the summer season, the unit can be conveniently used as a humidifier.

**Scope of delivery**

- 1x Remote control incl. battery (CR2025)
- 1x Wheels with fixing function
- 2 x Cold packs
- 1x Instruction manual

**Warranty period**

2 years

**Control Panel**

**Water tank can be filled from above**

**Air Cooler Filter**

It is recommended to change the filter once a quarter for hygienic reasons.

The Art. No. for your suitable replacement filter is the **F-BC6AC2001FTL**

**Air Cooler Operating Principle**

**Technical Data**

- Unit type: Air cooler
- Cooling function by atomization/evaporation of water
- Air purifier function (cools the room up to 8°C)
- 3 wind modes normal/natural/sleep
- Robust housing with rollers
- Pivot function
- Air circulation: 408 m³/h
- 2 Cool batteries included in delivery
- Power consumption in watts: 65 watts
- Input voltage: 220V - 240V 50Hz
- Capacity of the water tank: 6l
- Top loader can be filled with water from above
- Extendable water tank
- 3 speed levels
- 7 hours timer function
- Dimensions W/H/D: 262x724x278 mm
- Color: white/silver
- Weight: 5,9 kg
- EAN: 9005665024362
