

Highlights

Top loader

Refill at the top of the 5 litre tank

3 speed levels

low, medium, high

Swivel function (oscillation)

Distributes the cooled air optimally to all areas of the room

Remote control

Included in delivery

Air cooling & honeycomb filter

Air coolers draw in the heated room air on one side and then pass it through a honeycomb filter containing cold water as a coolant. The water in the cooling system slowly evaporates and absorbs heat from the room air flowing through. A fan then blows the now cooler room air back into the room.

Refreshing 3-in-1 air cooler

Fan with air purification and humidification function and three power levels.

The powerful air cooler provides pleasant cooling in your home.

Thanks to the innovative, natural cooling technology, the unit is energy-saving and releases cooled and purified air into the room. Ideal for living areas where an expensive air conditioner is not necessary.

Three speed levels combined with the different functions (cooling, ventilating) give you full freedom over the intensity of cooling.

Another highlight is the filling of the water tank. The top loader function conveniently fills the water from the top.

Ioniser function

Ionisers in air purifiers generate negatively charged ions (anions) that combine with positively charged dirt particles in the room air to form larger clusters and fall to the floor.

Ioniser function

Humidification

In addition to cooling the air, the air cooler differs from conventional fans in that the air is humidified and purified. After the summer season, the unit can also be conveniently used as an air humidifier.

Air purification

The air drawn in is washed through the filter. Dust, pollen, mites as well as bacteria and unpleasant odours are thus filtered out of the air.

Filter change

It is recommended to change the filter once a quarter for hygienic reasons. The article number for your suitable replacement filter is **F-BC5AC2001FTL**.

Scope of delivery

- Air cooler
- Remote control incl. battery (CR2025)
- Castors with locking function
- Cooling batteries (2x)
- Operating instructions

Warranty period

- 2 years

Layout sketch

Specifications:

- Power consumption in watts: 65 watts
- Input voltage: 220V - 240V 50Hz
- Cooling function through atomisation/evaporation of water (cools the room by up to 8°C)
- three wind modes normal/natural/sleep
- three speed levels
- Swivel function
- Robust housing with castors
- Air circulation: 216 m³/h
- two cooling batteries included
- Water tank capacity: 5l
- Top loader can be filled with water from above
- Timer function (1-7 hours)
- Colour: white/silver

Dimensions:

- Product: 260×560×240 mm
- Packaging: 310×610×285 mm
- Net/gross weight: 4.0 kg / 4.8 kg
