up to 25 km/h

BE COOL eSC-Hi2 - Top performance in the High-Line class

The deserved successor of our legendary "EAGLE" is the new eSC-Hi2.

The continuous development of our eScooters leads us to even better, even more powerful, even safer and even higher quality products.

Tried and tested features have been retained, such as the excellent rear wheel suspension or the maintenance-free 10 inch Honeycomb tyres.

Other things have been improved: the motor now has an output of 500 watts and the battery has been significantly upgraded with a capacity of

15 Ah/37V has been significantly upgraded. This has not only significantly improved the climbing performance, but also increased the range to up to 45 km*.

The stable chassis is made of aluminium with high strength. The scooter offers a very pleasant ride and is designed for a payload of up to 120 kg. The

BE COOL eSC-Hi2 is lightweight and robust at the same time.

It only takes a few seconds to fold the scooter. This makes it easy to transport in the boot.

Your safety is ensured by the dual braking system with a highly efficient drum brake at the front and disc brake at the rear wheel, as well as high-quality LED lighting at the front and rear.

Experience the new dimension of locomotion and enjoy every ride with the BE COOL eSC-Hi2.

Honeycomb tyres

Honeycomb tyres are maintenance-free. The special rubber tyre absorbs shocks and vibrations thanks to its internal honeycomb structure. Nails and shards cannot harm the tyre.

Dual braking system

The BE COOL eSC-Hi2 has a drum brake at the front and a disc brake at the rear. This dual braking system increases safety many times over.

Bright display and headlights at any time of day

The bright LCD display provides information about the battery status and speed.

You can set everything via the 1-button control. Whether this is the speed level or the LED light.

Safety first

The BE COOL eSC-Hi2 has suspension on the rear wheel. This offers maximum riding comfort and the 10" Honeycomb tyres glide over many a bump. The scooter has a drum brake at the front and a disc brake at the rear wheel.

Scope of delivery

- E-Scooter
- Charger
- Screws
- Tool
- Operating instructions

Warranty period

- 2 years, excluding wear parts
- Battery: 6 months

Specifications:

- Motor power 500 Watt
- Maximum range 45 km*
- Battery type: 15.0 Ah, 37 V
- Watt hours: 540 Wh
- Front drum brake and rear disc brake
- 4 speed settings
- 10 inch Honeycomb tyres
- Maximum speed: 25 km/h
- LED front light, LED rear light and brake light
- Suspension on rear axle
- Incline angle: 15%
- LCD display
- Bell
- App ("miniRobot")
- Maximum load: 120 kg
- Charging time: 6-7 hours
- Charger: Input AC 100-240V / Output DC 42.0V 2A
- Colour: Black

Dimensions:

- Product (H×W×D): 1170×440×1175 mm
- Product folded (H×W×D): 1170×480×500 mm
- Net/gross weight: 18.25 kg / 22.50 kg

Range test variables:

Person: 70 kg, Weather: dry, 25 °C and windless, continuous speed of 15 km/h, Track condition: flat, smooth asphalt.
