

Highlights

-  350 watt motor power
-  up to 20 km* range
-  3 speed levels
-  8" Honeycomb tyres
-  Electronic brake front, mechanical rear
-  Loadable up to 120 kg
-  up to 25 km/h
-  Handlebar height adjustable
-  LCD display

BE COOL eSC-Va1 - The nippy newcomer

The combination of performance, driving fun and trendy locomotion distinguishes this model in the entry-level e-scooter class.

The robust and at the same time light chassis convinces with its high strength and is designed for a payload of up to 120 kg. The Be Cool eSC-Va1 can be folded and stowed away in just a few seconds. The handlebar is height-adjustable.

Safety is a top priority for BE COOL. This is ensured by the electronic motor brake and a mechanical rear brake as well as front and rear lights. You can keep an eye on the speed and battery level on the digital display.

The powerful 350 watt hub motor accelerates you to the maximum permissible speed of 25 km/h within a very short time. The 6 Ah/36 Volt battery allows a range of up to 20 km.

The special Honeycomb tyre is maintenance-free. Nails and shards cannot harm the tyre.

Experience the new dimension of locomotion and enjoy every ride with the BE COOL eSC-Va1.

Well stowed and always ready to hand

Designed for short distances, e.g. for the "last mile". Simply folded, the BE COOL eSC-Va1 is the ideal companion in the city and can be taken on any public transport.

The lightweight design makes the scooter easy to carry.

Safety and riding comfort

The BE COOL eSC-Va1 has an electronic motor brake and a mechanical brake on the rear wheel.

Riding comfort is provided by the maintenance-free 8" Honeycomb tyres and the front shock absorber.

In addition to the dual braking system, a bright light at the front and rear, reflectors and a bell ensure your safety.

* The actual range depends on various factors such as load, temperature, wind speed, road conditions and driving style.

Technical changes, errors and colour variations excepted.

Specifications:

- Motor power 350 watts
- Maximum range: 20 km*
- Battery type: 6 Ah, 36 V lithium-ion
- Watt hours: 216 Wh
- Electronic front brake, mechanical rear brake
- 3 speed settings
- Maximum speed: 25 km/h
- 8 inch Honeycomb tyres
- LED front light, LED rear light and brake light
- LCD display
- Bell
- Maximum load: 120 kg
- Charging time: 3-4 hours
- Charger: Input AC 100-240V / Output DC 42V/1.5A

Dimensions:

- Product (H×W×D): 1050×420×1150 mm
- Product folded (H×W×D): 410×420×1080 mm
- Net/gross weight: 14 kg / 15.5 kg

Range test variables:

Person: 70 kg, Weather: dry, 25 C° and windless, continuous speed of 15 km/h, Track condition: flat, smooth asphalt.
