

## Highlights

- **3 levels**  
low, medium, high
- **Powerful cooling**  
The high-performance chrome floor fan from Be Cool has a powerful 120 watt motor and a large 45 cm fan head to generate an intensive and cool air flow
- **Durable design**  
The wind machine is ideal for continuous operation in the hot summer months and is therefore perfect for offices or salesrooms

## Scope of delivery

- Wind machine
- Operating instructions

## Warranty period

- 2 years

### The strong whirlwind with a diameter of 45 cm and plenty of power

This BE COOL wind machine takes the coolest air and distributes it throughout the room. This is because the freshest air is located directly on the floor. The highly effective wind machine utilises a powerful 120 watts of power.

With its high air flow rate and low operating noise, the high-quality wind machine achieves a pleasant cooling effect even on the hottest summer days.

#### Specifications:

- Input voltage: 220~240V
