

Design air cooler 5 liters with remote control

BCOSC5AC2201

Equipment Highlights

3 speed levels

low, medium, high

Climate-friendly operation

This type of cooling is a completely natural and cost-effective cooling method. Air coolers reduce the room temperature by means of the natural principle of water evaporation.

Oscillation

The oscillation optimally distributes the cooled air to all areas of the room.

Cooling effect

Cooling function due to atomization/evaporation of water

Air purification & humidification

In addition to cooling the air, the air cooler differs from conventional fans in that the air is humidified and cleaned. After the summer season, the device can also be conveniently used as a humidifier.

Refreshing 3in1 air coolerfan with air humidification function

The powerful air cooler ensures a pleasant cooling in your home. Thanks to the innovative, natural cooling technology, the device is energy-saving and releases cooled air into the room. Ideal for living areas where no expensive air conditioning is necessary. 3 speed levels give you full freedom over the intensity of cooling.

Specifications:

- ❖ Air coolers and humidifiers
- ❖ Power consumption 50 watts (AC 220-240 volts)
- ❖ Water tank volume 5 liters
- ❖ Operating time with full tank 10 – 12 hours
- ❖ 3 levels
- ❖ 70-degree oscillation
- ❖ Color white
- ❖ Remote control
- ❖ Timer

Air cooler operating principle

Scope of delivery:

- ❖ Operating instructions
- ❖ Two cooling batteries
- ❖ Remote control

Dimension Product (WxDxH): 260 x 255 x 593 mm

Dimensions packaging (WxDxH): 290 x 290 x 675 mm

Weight Net/Gross: 2.8 / 3.7 kg

EAN: 9005151001594
