

Highlights

3 in 1
Cooling,
humidifying,
ventilating

Conveniently refillable
Thanks to 5 litre
tank from above

3 speed levels
low, medium, high

Oscillation
The oscillation
distributes the
cooled air
optimally to all
areas of the room

Timer function
1-12 hours

Simple operation
via touch control
panel or remote
control

Refreshing 3in1 air cooler, fan with humidification function.

The powerful air cooler provides pleasant cooling in your home.

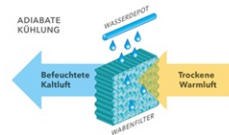

Thanks to the innovative, natural cooling technology, the device is energy-saving and releases cooled air into the room. Ideal for living areas where an expensive air conditioner is not necessary. Three speed settings give you full freedom over the intensity of cooling.

Climate-friendly operation

This type of cooling is a completely natural and cost-effective cooling method. Air coolers reduce the room temperature by means of the natural principle of water evaporation.

Air purification & humidification

In addition to cooling the air, the air cooler differs from conventional fans in that the air is humidified and purified. After the summer season, the unit can conveniently also be used as an air humidifier.

Air cooler Operating principle

Cooling effect

Cooling function through atomisation/evaporation of water.

Scope of delivery

- Air cooler
- Remote control
- 2x cooling battery
- Operating instructions

Warranty period

- 2 years

Specifications:

- Air cooler and humidifier
- Power consumption 50 watts (AC 220-240 volts)
- Water tank capacity 5 litres
- Operating time with full tank 10 - 12 hours
- Three levels
- 70-degree oscillation
- Colour: white
- Remote control
- Timer

Dimensions:

- Product (WxDxH): 260x255x593 mm
- Packaging (WxDxH): 290x290x675 mm
- Net/gross weight: 2.8 kg / 3.7 kg
