SHX Infrared Patio Heater with WiFi

The SHX51HEAT2022 is a 2000 watt infrared heater with three heat settings - ideal for use in conservatories, offices, utility rooms, bedrooms and hallways.

The unit is designed for wall mounting and can be controlled with the supplied remote control or via free smart home apps on the home WLAN.

The switchable Smart Heating function selects the ideal heating level depending on the difference in temperature to the set desired temperature .

A child safety function and the integrated overheating protection ensure increased safety.
