Safe and simple

The stand fan is easy to operate on the handle. The 1.5 m long mains cable makes it easy to position the stand fan.

The BE COOL floor fan is the perfect combination of design, performance and quality.

The piano lacquer look and the red-gold coloured fan blades in Italian design are a highlight in every home.

The gold-coloured control buttons are integrated into the pole of the fan and blend in with the design.

The fan has an extra-flat, round base, which guarantees a safe stand at any time. The five red gold-coloured rotor blades ensure a quiet and even air flow.

Furthermore, the design stand fan has three speed levels, an oscillation function and an individual tilt angle adjustment for perfect air distribution in the room.

Five gold-coloured rotor blades

The five rotor blades as well as the oscillation button are in the colour red-gold and blend with the design in combination with the black piano lacquer.

Practical remote control

The remote control allows you to easily operate the fan from a distance, in addition to the red-gold coloured switches on the handle of the stand fan.
