Halogen heater with 1200 watts

Three power levels - 400, 800 and 1200 watts - can be set on this lightweight and compact halogen radiant heater.

Thanks to the absence of a fan, the SHX24HS1200 can be operated almost completely silently. The wide-angle oscillation function nevertheless distributes the promptly available heat optimally throughout the room.

Equipped with an integrated handle for easy transport, the radiant heater can be taken anywhere.
