- Suitable for almost every scooter model or bicycle
- Lock holder included

Scope of delivery

- Handcuff lock
- 6 keys
- Lock holder

Warranty period

- 2 years

BE COOL handcuff lock - the daily companion to secure your vehicle.

The innovative design of the very robust handcuff lock provides the highest possible security and is very easy to take along.

The swivelling connecting links prevent a fixed anchor point. This means that it cannot be broken open even by large leverage forces. The intermediate links provide additional flexibility, making it easy to attach to bars or bike racks.

The durable material consists of laminated, hardened steel and a rubber coating to protect your vehicle. The handy design allows you to store the lock small and compact. Folded up, it fits in any pocket, backpack or even bicycle saddle bags.

This anti-theft lock perfectly secures any e-scooter, your bike but also a pram
