

PTC Ceramic Fan Heater with Chimney Effect 2000W

SHX21PTC2000KE

Highlights

- **Room size**
Suitable for rooms up to 20m²
- **Power consumption**
max. 2000 watt
- **3 operating modes**
Fan function, 1000 or 2000 Watt
- **Fireplace effect**
additionally creates a cosy feeling
- **Ceramic heating element**
keeps the heat longer
- **LED display**
- **Thermostat**
- **Timer function**
1-8 hours
- **Swivel function**
Switchable
- **Increased safety**
thanks to anti-tipper

SHX Ceramic Column Fan Heater with Fireplace Effect

Our SHX ceramic column heater fan in a simple design with a fireplace effect is ideal for generating additional heat on colder days.

The column fireplace impresses with its simple design and can be excellently integrated into all furnishing styles. In addition, the flame pattern can be switched on individually and brings out the fire beautifully.

The desired temperature can be set via the thermostat of the fan heater and is shown on the display. With the timer function, you can programme the SHX fan heater individually between 1 and 8 hours. Thanks to the practical oscillation function, the ceramic fan heater distributes the heat evenly in rooms up to max. 20m² in just a few minutes.

The most important advantages of the SHX ceramic fan heater with chimney effect at a glance

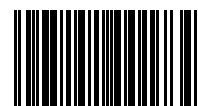

- The natural flame pattern of the chimney effect integrates perfectly into all furnishing styles
- High stability
- Low-noise operation
- Low wind generation, as no strong supply of cooling air is required
- More durable than other designs
- Heating wires are insensitive to impact
- Less odour, as neither dust nor hair can burn on ceramics
- **Significantly less infestation of mould, germs, bacteria and viruses**

Keyword allergy!

Due to the nature of the heating register, the large surface of the ceramic heating element generates a temperature that does not cause any dust to burn. This results in less fine dust. This has a particularly positive effect on allergy sufferers. The SHX ceramic fan heaters are therefore a good solution for quick heating.

PTC Ceramic Fan Heater with Chimney Effect 2000W

SHX21PTC2000KE

Ceramic fan heaters

offer the following advantages over other fan heaters: higher stability. quiet operation. low wind generation, as no strong supply of cooling air is required.

Advantages of ceramic fan heaters

Since the heating elements of a ceramic fan heater are made of ceramic, it is significantly heavier than standard fan heaters. The higher weight of the unit offers the advantage of a particularly high stability.

Operating time

Ceramic fan heaters are designed to provide additional heat for short periods of time when needed.

Safety

An overheating protection, high-quality workmanship and a solid, tip-proof stand ensure safety during operation.

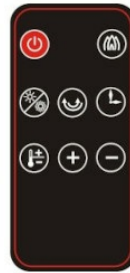

The LED display with large screen and control buttons allow easy operation with automatic as well as manual effect integrates perfectly with all interior styles.

The ceramic fan heaters of the SHX series combine allergy-friendly PTC heating technology and attractive design.

PTC Ceramic Fan Heater with Chimney Effect 2000W

SHX21PTC2000KE

Scope of delivery

- PTC ceramic fan heater
- Remote control incl. battery (CR2025)
- Operating instructions

Warranty period

- 2 years

Specifications:

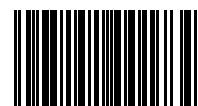

- Suitable for rooms up to 20 m²
- Mains voltage: 220-240 volts
- Power consumption in watts: 2,000 watts
- 3 power levels: Ventilation function / 1,000 watts / 2,000 watts
- Fireplace effect with natural flame pattern
- Summer ventilation
- Oscillating
- Ceramic heating element
- Digital LED display
- Safety thermostat
- Volume dB(A): 65dB
- Remote control
- Anti-tilt protection
- Timer function: 1-8 hours
- Overheating protection
- Colour: black

Dimensions:

- Product (WxHxD): 300x858x300 mm
- Packaging (WxHxD): 202x897x180 mm
- Net/gross weight: 3.37 / 4.25 kg
