Rechargeable via USB

### Light as a feather & weatherproof

Only 96 grams, IP56-certified

## Scope of delivery

- Padlock
- Micro USB charging cable
- Operating instructions

## Warranty period

- 2 years

## Your fingerprint is your key!

With the BE COOL fingerprint padlock, you'll never have to look for your keys again. Save time with the quick release mechanism.

The lightweight padlock made of a zamak alloy secures your valuables and is intuitive to use at the same time. Storage of up to 10 different fingerprints and a standby time of 6 months make it suitable for the whole family, both indoors and outdoors.

A Morse code can be added for security. The compact design allows for a variety of uses, for the pocket, at the locker, in the garden shed or for the backpack.
