

Equipment highlights

Balance Board:

6.5" solid rubber tyres

400 watt motor power
(2 x 200 Watt)

Up to 10 km** range

Up to 12 km/h** max. speed

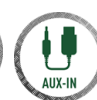

Loadable up to 100 kg

Sound Dot:

- 5 Watt RMS
- 1,200 mAh battery
- IPX6
- Micro SD card slot
- USB playback function
- FM tuner
- Hands-free function
- Carrying strap
- Dual pairing
- 8 hours playing time

Backpack bag:

- Optimally adjustable shoulder straps
- Backpack with zip
- Extra mesh pocket

Balancing safely and cool through life

Make a statement with this sleek and cool design. It looks great and is a lot of fun to ride.

The built-in mechanism allows the rider intuitive, almost floating and effortless control of the balance board.

Safety has the highest priority. There is an automatic switch-off as soon as contact with the ground is lost as well as in case of falls.

The 6.5" tyres are non-slip, durable and puncture-proof. With the right practice, riding on uneven ground is possible. Just climb on and off you go! You lean into the direction of travel and the ride begins. The non-slip treads allow for very safe movement.

The CARBON balance board stands for the highest standards paired with safe handling for your children.

Powerful drive

The balance board is equipped with two electric motors that deliver 2 x 200 watts of power. You can reach a maximum speed of up to 12 km/h. A range of up to 10 km is possible with one battery charge.

Puncture-proof tyres

The solid rubber tyres offer safety. You can drive everywhere without any problems and even have a perfect driving experience on uneven or bumpy terrain. They will not run out of air even if there is a sharp object in the way.

Great performance and sleek design

The motor power with 400 watts (2 x 200 watts) brings you safely to your destination with a top speed of 12 km/h. With this design you are cool on the road. The 6.5" solid rubber tyre is maintenance-free and there is no chance of a flat tyre.

The aluminium rim design not only looks classy, but also offers high stability and robustness.

Safety first

If it gets a little darker or you are out and about in the twilight, you can make yourself easily visible thanks to the lighting.

For transporting the 6.5" balance board

The backpack is made of strong and durable nylon and is ideal for carrying and storing. It protects the board from water and rain, so everything stays clean and protects the varnish.

An additional mesh pocket is the ideal place to store accessories such as the balance board charging cable. It can also be used for water bottles, wrist pads, sunglasses, etc. The shoulder straps are adjustable, making it comfortable to carry. The shoulder straps are adjustable, making it comfortable to carry.

High-quality sound on the move to the point

Enjoy music anywhere and simply ideal to take along. The handy Bluetooth speaker is the perfect all-rounder and, thanks to its waterproofness, the ideal companion in any weather.

Technical data

- 6.5 inch solid rubber tyres
- Self-calibrating
- Motor power 400 Watt (2 x 200 Watt)
- Battery type: 4.0 Ah, 36 V
- Maximum speed: 12 km/h**
- Maximum range: 10 km**
- Maximum load capacity: 100 kg
- Charging time: 3 hours
- LED control lights
- LED lights
- Dimensions - (H x W x D): 595 x 190 x 180 mm
- Weight: 8.9 kg
- Colour: Carbon design
- Internal Art. No.: BC-BB6521CB-3S
- EAN: 9005665026748

** Actual range depends on various factors such as load, temperature, wind speed, road conditions and driving style.

Subject to technical changes, errors and colour variations
