

TOWER FAN 121cm

SHE121TU2002F

Equipment Highlights

LED Display

Easy to read and bright LED display with minimal power consumption.

3 Speed Levels

Low, medium and high

Timer

12 hour mode and switching on and off after desired time.

3 Wind Modes

Normal, Nature and Sleep mode

Oscillation Function

The vibrations help the cold air to reach different areas of the room.

Ion Cleaning Function

Cleaning of the ambient air

Cooling Effect

Due to the strong performance of the tower fan

The SHE tower fan is the perfect combination of design, performance and quality.

It has an easy to use control panel with LED display and infrared remote control.

3 speed levels and the oscillation function guarantee cooling in summer - low, medium and high.

It also has 3 wind mode settings - normal, nature and sleep mode.

The timer function helps you to set the time when the fan should switch off automatically. The timer function allows you to control up to 12 hours of uninterrupted cooling time.

This tower fan has a negative ion cleaning function that can detect the air environment at any time and automatically adjust the cleaning performance so that you can enjoy intelligent and comfortable living.

Österreichische
Marke

Safe and Easy

The tower fan is easy to operate manually from the top of the control panel. The large 1.4 m long power cable makes it easy to position the fan. The fan has a high-quality certified 45W motor.

Ionization

The built-in ionizer produces negative oxygen ions which, in addition to the cooling fan function, purifies the indoor air and supplies it with fresh air. Negative ions attach themselves to dust particles, microorganisms and other unwanted particles in the air and combine them with each other. These particles become heavier than the air, fall to the ground and are thus filtered out of the air.

Scope of Delivery

- 1x remote control incl. battery (CR2025)
- 1x instruction manual

Warranty Period

2 years

Technical Data

Touch Panel

LED Display

The large LED display shows the room temperature and the most important functions. All functions can be easily and intuitively controlled on the touch panel.

Sleep mode

- Input voltage: 220V~240V
- Frequency: 50 Hz
- Power: 45 watts
- Standby: 0.045KWH <1W
- height: 121cm
- Speed levels: 3
- Max. air speed: 7,1m/sec
- noise level: 50 dB(A)
- 3 wind modes: normal, natural, sleep
- Air circulation: 960 m³/h
- Pivot function
- Ionizer
- 12 hours timer function
- sleep mode
- Tray for remote control
- Sturdy housing
- large LED display
- Temperature and function display
- color: white
- Dimensions WxHxD: 315x1210x315mm
- weight: 3,5 kg
- EAN: 9005665024577
