

## Highlights

- **Bluetooth 5.0**  
Use the emergency radio also as a Bluetooth speaker!
- **Always ready for use**  
The emergency radio can be charged not only via the socket, but also via solar power or a hand crank.
- **All in one**  
The Be Cool emergency radio can also be used as a power bank and is also equipped with a night light and torch function.
- **Well informed**  
Thanks to the integrated thermometer, you can keep an eye on the temperature.

## The emergency radio for every situation

With the Bluepalm emergency radio, you are equipped for any situation. Whether as a radio, Bluetooth speaker, night light, torch or even as a power bank for your mobile devices, the device with IPX5 protection class is ready for use in any weather.

No power socket nearby? No problem! The Bluepalm Outdoor Radio can be charged via the built-in solar panel or the hand crank when the sun is shining, so the device is always ready for use.

Want to know what the temperature is? Just take a look at the display!
