Product video:

Welcome the terror of the night with our animated walking spider with web! This creepy and fascinating Halloween decoration will terrify your guests. With an impressive size of 80 cm, this spider will give your home a menacing atmosphere and provide unforgettable fright moments.

Our animated walking spider is the nightmare of all arachnophobes. With realistic movement and an authentic appearance, it will send a shiver down anyone's spine. The spider moves forward on eight legs and seems to lurk everywhere. Its body has furry details and terrifying eyes to complete the horror.

This terrifying spider is accompanied by sound effects that add to the eerie ambience. When it moves, it makes menacing sounds that make the heart beat faster. The combination of movement and sound effects makes this spider an absolute eye-catcher at your Halloween party or haunted house.

This spider is battery operated and requires 3 x AA batteries to work to its full effect.

Imagine your guests being startled as they enter the room and encounter the shaking grim reaper. Placed in your entryway, or party room this spider will create a creepy yet intriguing atmosphere.
