

Highlights

- **Climate-friendly operation**

This type of cooling is a completely natural and cost-effective cooling method. Air coolers reduce the room temperature by means of the natural principle of water evaporation.

- **Air purifier**

The air that is sucked in is washed through the filter. Dust, pollen, mites as well as bacteria and unpleasant odours are thus filtered out of the air.

- **3 speed levels**

Low, medium, high

- **Swivel function**

The swivel function optimally distributes the cooled air to all areas of the room.

Refreshing 3in1 air cooler

with air purification and humidification function

The powerful air cooler provides pleasant cooling in your home.

Thanks to the innovative, natural cooling technology, the device is energy-saving and releases cooled and purified air into the room.

Ideal for living areas where an expensive air conditioner is not necessary. 3 speed levels combined with the different functions (cooling, ventilating) give you full freedom over the intensity of cooling.

Air cooling & honeycomb filter

Air coolers draw in the heated room air on one side and then pass it through a honeycomb filter containing cold water as a coolant. The water in the cooling system slowly evaporates and absorbs heat from the room air flowing through. A fan then blows the now cooler room air back into the room.

Air purification & humidification

In addition to cooling the air, the air cooler differs from conventional fans in that the air is humidified and purified. After the summer season, the unit can also be conveniently used as an air humidifier.

Extendable water tank
Volume 4.5 litres

Cooling batteries
(included in delivery)

Air cooler 5 litres

white/grey

SHE5AC2005

Filter change

It is recommended to change the filters once a quarter for hygienic reasons.

The Art. No. for the suitable replacement filter is:

F-SHE5AC2005

Scope of delivery

- Air cooler
- Air filter
- Cooling battery (2x)
- Operating instructions

Warranty period

- 2 years

Front view top side

Specifications:

- Device type: Air cooler
- Cooling function through atomisation/evaporation of water
- Air purifier function (cools the room by up to 8°C)
- Robust housing with castors
- Swivel function
- Cooling batteries (2 pcs.) included in delivery
- Water tank capacity: 4.5 l
- Speed levels: 3
- Power consumption in watts: 80W
- Input voltage: 220V - 240V 50Hz
- Colour: White

Dimensions:

- Dimensions W/H/D: 260x570x240 mm
- Weight: 4,0 kg
