

Highlights

- 4 in 1: Cooling, dehumidifying, heating, ventilating
- Inverter technology
- 30% less power consumption
- Very powerful
- Can also heat thanks to an integrated heat pump
- No manual switching on and off required
- Very pleasant and constant room temperature
- Automatic evaporation system
- LCD display
- Timer function
- Remote control

4in1 inverter air conditioner: cooling, heating, dehumidifying and ventilation

Our inverter air conditioning systems work on a different principle to classic ON/OFF air conditioning systems: the speed of rotation of the compressor can vary.

- The greater the difference between the set temperature and the room temperature, the higher the rotation speed of the compressor.
- The smaller the difference between the two temperatures, the lower the compressor speed.

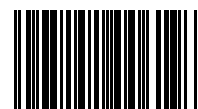

This automatic speed control has several advantages:

- The power consumption of the inverter air conditioner is up to 30% lower than that of ON/OFF units.
- The noise level of the inverter air conditioner is considerably lower than that of ON/OFF units
- The inverter air conditioner reaches the set temperature significantly faster than the ON/OFF devices.

Due to its low power consumption and the advantages mentioned above, the BECOOL inverter air conditioner is a good investment in the long term.

Overview of functions:

24-hour timer, remote control, energy-saving auto mode, three fan speeds, automatic evaporation system (better efficiency and 100% evaporation at below 90% humidity), handles and castors

Scope of delivery

- Remote control incl. batteries
- Exhaust air hose: 150 cm long, 15 cm diameter
- Window moulding with hose adapter
- Taper adapter
- Operating instructions

Warranty period

- 2 years

Specifications:

- Cooling capacity (BTU): 12,000 BTU/h
- Cooling capacity: 3500 watts
- Heating capacity: 2930 watts
- Application area (non-binding): for rooms up to max. 105m³ or max. 42m²
- EER: 3.6
- COP: 3.6
- EU energy efficiency class: A++ (cooling) / A+++ (heating)
- Air circulation: 410m³/h
- Noise level (sound power): max. 64 dB(A)
- Power consumption (cooling/heating): 975 watts/810 watts
- Power supply: 220-240 V/50 Hz
- Colour: white/black

Dimensions:

- Product (W×H×D): 450×745×396 mm
- Packaging (W×H×D): 499×880×459 mm
- Net/gross weight: 31.1 kg / 35 kg
