

Highlights

- **LED display**
Easy-to-read, bright LED display with minimal power consumption.
- **Power-saving mode**
This additional feature enables energy savings through reduced power consumption
- **Timer**
12/24-hour mode. Switch on and off at the desired time.
- **Dehumidification**
Ideal for dehumidifying without temperature differences
- **R32 refrigerant**
Is more environmentally friendly and energy-efficient than some other refrigerants.
- **Whisper-quiet**
The noise level can be reduced by lowering the fan speed or using sleep mode.
- **Auto Restart**
After switching off or a power cut, the selected programme will resume.

Premium Cooling

QUICK CONNECTOR

Cooling capacity: 18,000 BTU – max. 160 m³ – max. 64 m² with a ceiling height of 2.5 metres

Whether for cooling, heating or dehumidifying, an air conditioning unit is always a worthwhile investment for our well-being. Air conditioning units are particularly in demand in bedrooms, as a comfortable climate should prevail there so that we can start the new day as rested as possible. Physical well-being boosts our performance.

A living space that is optimally temperature-controlled and dehumidified is crucial to our well-being. The dehumidification function, in particular, makes a significant difference even at the same temperature. For example, an air-conditioned room at 26°C feels very different from an un-air-conditioned one with stuffy air.

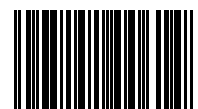

Loft conversions and top-floor flats can reach uncomfortable temperatures as early as spring. It is often very difficult to dissipate the heat quickly. With an air conditioning system from Bluepalm, you can solve this problem and look forward to an improved indoor climate tomorrow, starting today.

Premium Features

- **3D Air Flow Vertical/Horizontal Auto Swing:** The airflow is distributed left/right and up/down
- **Super Silent Mode:** Operation at just 18dB
- **Anti-freeze function (+8°C)**
- **Temperature measurement via the remote control:** Ensures optimal temperature measurement directly in my immediate surroundings
- **Cooling function possible down to an outside temperature of -15°C**
- **Comfort Cooling:** Prevents excessive dehumidification during cooling
- **5 fan speeds:** Low/Middle/High/Turbo/Mute
- **Turbo cooling and heating functions**
- **Child lock or key lock for the remote control**
- **Backlit display on the remote control**

How heat pumps work

This comfortable and energy-saving air conditioning system is also known as an air-to-air heat pump. There is a great deal of untapped energy in the air. Bluepalm units capture this energy and utilise it. Invest today in a free energy source and enjoy the revitalising effects of a perfectly air-conditioned and dehumidified home or business premises.

Lieferumfang

- Outdoor unit
- Indoor unit
- 4 m copper pipes
- Vibration dampers / base plates
- User manual
- Remote control

- **Louver position memory:** The opening angle of the louvers is saved when the unit is switched off
- **Gold Fin:** Long-lasting lotus effect – Antibacterial – Energy-saving – Durable
- **I Set:** Remote control memory function
- **Self-cleaning function**
- **Healthy filters: Silver ion / Activated carbon / Catechin filter / Vitamin C filter:** improve air quality

Gentle Wind

Der Luftstrom wird sanft und weich und bietet dem Benutzer einen hervorragenden Luftstromkomfort.

Garantiezeit

- 2 years

Specifications:

- Cooling capacity: 18,000 BTU
- Refrigerant: R32
- SEER / SCOPE: 6.1 / 4.0
- Cooling capacity: max. 5,100 watts
- Heating capacity: max. 5,100 watts
- Energy efficiency class: A++
- Air circulation: 800 m³/h
- Indoor noise level: 36–53 dB(A)
- External sound power: 65 dB(A)
- Indoor sound pressure: 27–43 dB(A)
- External sound pressure: 55 dB(A)
- Power supply: 220–240 V ~ / 50 Hz
- Cooling: 1.7–12.0 A
- Heating: 1.7–13.0 A
- Application range: max. 160 m³ (* 64 m²) * with a room height of 2.5 metres

Dimensions:

- Product internal/external (W×H×D): 910×294×206 mm / 853×602×349 mm
- Packaging dimensions (W×H×D): 980×280×380 mm / 880×625×390 mm
- Net weight (internal/external): 11 kg / 31.5 kg
- Gross weight (indoor/outdoor): 13.5 kg / 34.5 kg
