Scope of delivery

- Wind machine
- Operating instructions

Warranty period

- 2 years

Our powerful wind machine has been designed for maximum efficiency and offers impressive air circulation, even in the most spacious environments. With its two adjustable speed settings, it adapts flexibly to different requirements.

The robust rotary switch makes it easy to operate, while the high-quality aluminium blades ensure reliable and quiet air distribution. The adjustable tilt allows you to precisely direct the airflow to reach even the most remote corners.

Mobility is key in demanding environments. Our drum fan is equipped with two castors to allow you to position and relocate it easily. Whether in a large hall, a garage or on a construction site - this fan is ready for any challenge.

Specifications:

- Voltage: 220-240V~50Hz
- Power: 300W
- Air circulation: max. 16640 m³/h
- Rotation speed: max. 900 rpm
- Noise level: 72.1 dB(A)
- 2 speed levels
- Rotary switch
- High-quality aluminium blades
- Adjustable inclination
- Mobile thanks to 2 castors

Dimensions:

- Product (W×H×D): 900×940×324 mm
- Packaging (W×H×D): 900×935×250 mm
- Net/gross weight: 17.03 kg / 19.45 kg
