

## Highlights

- **360° air outlet**  
ensures that the heat is distributed evenly throughout the room
- **3 levels**  
Choose between three levels - Fan for air circulation, Low for gentle heat and High for faster heating
- **Adjustable thermostat**  
allows you to automatically regulate the heat output and save energy
- **Safety comes first**  
The fan heater has overheating protection, a thermal fuse and tilt protection

## Scope of delivery

- Fan heater
- Operating instructions

## Warranty period

- 2 years

### Maximum comfort and cosy warmth with our PTC fan heater

Thanks to its innovative 360-degree air-ceramic heating technology, it distributes heat evenly throughout the room without leaving cold corners.

Choose between three different fan speeds (fan, low, high) to achieve the desired air circulation and heat intensity. The two heating levels of 750W and 1500W offer the flexibility to adjust the power to your individual needs.

The thermostat setting allows you to maintain the desired room temperature and save energy at the same time.

Safety is paramount here - our fan heater is equipped with overheating protection and a thermal fuse to ensure safe operation.

The operating indicator light keeps you constantly informed about the current heating status of the appliance. The user-friendly manual control and the toggle switch for automatic switch-off in the event of accidental tipping over make this fan heater particularly safe and easy to use.

### Specification:

- 360 degree air ceramic heater
- 3 levels fan/low/high
- 2 heat settings 750W/1500W
- Adjustable thermostat
- Overheat protection
- Thermal fuse
- Operating indicator light
- Toggle switch
- Carrying handle
- Colour: white

### Dimensions:

- Product (W×H×D): 186×286×205 mm
- Packaging (W×H×D): 223×325×233 mm
- Net/gross weight: 2 kg / 2.2 kg
