

Highlights

- **Simple control**
with LED display with touchpad and remote control
- **Powerful**
16 kW heat output
- **Low power consumption**
of only 80W
- **Versatile in use**
for a heating surface of 100-120 m²
- **Diesel fuelled**
Use of diesel as fuel
- **Low noise**
with a noise level of only 48 dB(A)
- **Safety**
with various protective devices such as tip-over protection and flame failure protection

Lieferumfang

- Diesel heater
- Operating instructions
- Remote control

Garantiezeit

- 2 years

The infrared diesel heaters offer an efficient and powerful heating solution for a variety of applications.

With a sleek and compact design as well as a unique structure, they adapt seamlessly to different environments. These heaters have a powerful radiator with wide radiation that covers an area of up to 120 square metres. Operation is simple via the LED display with touchpad and remote control, and manoeuvrability is made possible by 360° wheels.

Safety features such as 45° tilt protection, flame failure protection, low bottom oil level alarm and overheat protection ensure safe operation.

With an impressive output power of 16 kW, these diesel heaters provide efficient and reliable heating power for various applications.

Specifications:

- Rated power consumption: 80W (220V / 50Hz)
- Output power: 16 kW
- Heating surface: 100-120 m²
- Fuel: diesel fuel
- Fuel consumption: 1.18-1.45 l/h
- Noise level: 48 dB(A)
- Tank capacity: 50 litres
- LED display with touch control panel and remote control
- Free manoeuvrability thanks to 360° wheels
- 24-hour timer
- 45° tilt protection
- Flame failure protection device
- Low oil level alarm at the bottom
- Safety protection against overheating

Dimensions:

- Product (W×H×D): 950×1165×305 mm
- Packaging (W×H×D): 995×1225×345 mm
- Net/gross weight: 50 kg / 55 kg
