

## Highlights

- **Weatherproof**  
electrical components are designed to withstand humidity and moisture
- **Motor power**  
500 watts
- **Range**  
Up to 50 km\*
- **Speed levels**  
4 levels selectable
- **Tyres**  
10" pneumatic gel tyres
- **Brake system**  
Front drum brake & rear disc brake, electric brake
- **Suspension**  
Front and rear
- **Loadable**  
up to 120 kg
- **Display**  
LCD
- **speed**  
up to 25 km/h

### BE COOL Hi20 - Top performance in the high-line class

With an impressive motor output of 500 watts, the Hi20 sets new standards for electric mobility. Experience maximum freedom with a range of up to 50 km\* thanks to the powerful 15.0 Ah, 48 V battery with 720 Wh watt hours. This scooter not only offers powerful performance, but also outstanding safety.

The high-quality braking system ensures reliable and precise brake control. With 4 adjustable speed levels, you can customise the ride to your liking. The 10-inch pneumatic gel tyres ensure a smooth ride, while the maximum speed of 25 km/h allows you to get around town in comfort.

For maximum safety, the Hi20 has an LED front light, LED rear light, brake light and indicators. The front and rear suspension guarantees a comfortable ride, even on uneven terrain with gradients of up to 15%.

The clear LCD display makes it easy to monitor the speed, battery charge level and other important information. An integrated bell ensures that you can be heard at all times, and the practical app enables intuitive control and monitoring of your scooter.

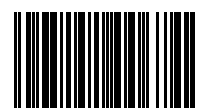

### Bright display and headlights at any time of day

The bright LCD display provides information about the battery status and speed.

You can adjust everything using the button control. Whether this is the speed level or the LED light.

\* The actual range depends on various factors such as load, temperature, wind speed, road conditions and driving style.

Technical changes, errors and colour variations excepted.

**Weatherproof**

Rain or shine, your path remains untouched. Our e-scooter redefines weatherproofing, with carefully optimised electrical components - from the intuitive display and precise controller to the robust battery and powerful motor. These electrical components are specially designed to withstand moisture and wet conditions, so you can travel safely and worry-free in any weather.

**Puncture-proof pneumatic gel tyres**

An innovative development in the field of e-scooter tyres. This type of tyre combines the advantages of traditional pneumatic tyres and solid rubber tyres to ensure an optimum riding experience.

**3-way braking system**

The BE COOL Hi20 has a drum brake on the front wheel, a disc brake on the rear wheel and an electronic brake. This triple braking system increases safety many times over.

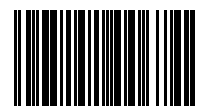

**Safety first**

The BE COOL Hi20 has front and rear wheel suspension. This offers maximum riding comfort and the 10" airless tyres glide over many a bump. The scooter has a drum brake on the front wheel and a disc brake on the rear wheel.

## Scope of delivery

- E-scooter
- Charger
- Screws and bolts
- Tool kit
- Instruction manual

## Warranty period

- 2 years, excluding wearing parts
- Battery: 6 months

## Specifications:

- Motor power: 500 watts
- Maximum range: 50 km\*
- Battery type: 15 Ah, 48 V
- Watt hours: 720 Wh
- Front drum brake & rear disc brake, electric brake
- 4 speed levels
- 10 inch Gel-Airtyre
- Maximum speed: 25 km/h
- LED front light, LED rear light, brake light, indicators
- Front and rear suspension
- Energy recovery
- Gradient: 15%
- LCD display
- Bell
- app
- Maximum load capacity: 120 kg
- Weatherproof
- Protection class: IPX4 (electrical components: IPX7)
- Charging time: 7-8 hours
- Charger: Input AC 100-240V~50-60Hz / Output DC 54.6V/2A

## Dimensions:

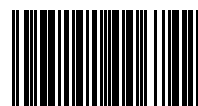

- Product (H×W×D): 1150×635×1250 mm
- Product folded (H×W×D): 1150×635×630 mm
- Packaging (L×W×H): 1180×220×520 mm
- Net/gross weight: 21.25 kg / 26.45 kg

## Test variables for the range:

Person: 70 kg, weather: dry, 25 °C and no wind, continuous speed of 15 km/h, track conditions: flat, smooth tarmac

*\* The actual range depends on various factors such as load, temperature, wind speed, road conditions and driving style.*
