- Micro SD-Card Slot
- USB playback function
- FM tuner
- Hands-free function
- Carrying strap
- Dual Pairing
- 8 hours playing time

High quality sound to the point

With the Sound-Dot, you can enjoy your music anywhere and it becomes the ideal companion.

The waterproof design (IPX6) makes the handy speaker the perfect all-rounder in any weather and any place.

A continuous music enjoyment is possible up to 8 hours thanks to the powerful 1,200 mAh battery.

The SD card slot and the USB playback function allows you listening to your favorite music without any external source and thus further increases your flexibility.

Despite the slim dimensions the speaker surprises with deep and powerful bass!

Passive-Membram System

Due to the low mechanical losses, the subwoofer thus has a high level of detail and extreme dynamics.

For demanding applications, passive diaphragm technology is usually the best solution to keep the cabinet size small while still maintaining the full extent of sound.

The weights of the passive membranes are precisely tuned, thus guaranteeing a dynamic and powerful sound image.

Multifunctional playback options

Experience music as if you were there live. No matter where the music comes from. Connection possibilities via Bluetooth, Micro-USB or AUX connection possible. Additionally there is a USB playback option.

Speakerphone function

comfortable and easy to phone. Connect the Smart Phone with the Soundtube Drop and communication will always work perfectly. Always one hand free and this with optimal voice quality.

Dual Pairing

connect 2 Soundtube Drop to achieve an excellent sound experience. The True Wireless Stereo function synchronizes the left and right audio channel. This room filling stereo sound is a pleasure.

FM Radio

The integrated FM tuner has a station search function and can be operated intuitively. The included Micro-USB cable can be used as an antenna to amplify the reception.
