Scope of delivery

- Universal silicone smartphone holder

Warranty period

- 2 years

This universal smartphone holder offers a reliable solution for anyone who wants to use their smartphone safely and conveniently, regardless of whether they are travelling by bike or e-scooter. With its 360° rotatability, the mount adapts flexibly to your needs and is suitable for smartphones with screen diagonals from 4 to 6 inches.

Installation is child's play and the mount fits handlebars with diameters from 17 to 49 mm. Made from high-quality silicone, it not only offers a non-slip grip, but also reliably protects your device. Stay safely connected on the road and enjoy your rides to the full with the universal silicone smartphone mount.
