- DSP Technology
- Hands-free function
- Passive membrane system
- carrying strap
- Dual Pairing
- 18 hours playing time

Compact sound to go

With the Soundtube Drop you can enjoy your music wherever you are and it simply becomes the ideal companion.

The waterproof design (IP67) makes the speaker the perfect all-rounder in any weather and at any place.

Up to 18 hours of continuous music enjoyment thanks to the powerful 2,500 mAh battery. A playing time that is sufficient for any trip.

The compact design ensures perfect mobility. If there is no more room in the bag, it can be fixed anywhere with the carrying strap.

Despite the slim dimensions, the speaker surprises with powerful sound!

Passive-Membram System

Due to the low mechanical losses, the subwoofer has a high level of detail and extreme dynamics.

For demanding applications, passive diaphragm technology is usually the best solution to keep the cabinet size small while still maintaining the full extent of sound.

The weights of the passive membranes are precisely tuned, thus guaranteeing a dynamic and powerful sound image.
