### USB-C cable with integrated bottle opener - perfect for travelling

Experience the perfect combination of functionality and innovation with our USB-C cable, which not only connects your digital devices, but also surprises you with an in-built bottle opener. This cable is your indispensable companion for every situation!

With a practical length of 20 cm and an impressive charging current of up to 2.1A, our cable ensures fast charging of your devices so that you always stay connected. Whether you want to charge your smartphone or other devices, the universal compatibility of our cable allows you to connect a variety of devices with ease.

But this cable is more than just a charging tool - it's a true all-rounder. The integrated bottle opener makes it the ideal companion for social occasions. Whether you're enjoying a picnic in the park or a spontaneous party with friends, you're always ready for a cosy moment.

The design combines elegance with robustness, so that the cable not only impresses with its functionality, but also with its style. Small and lightweight, it is easy to transport and fits perfectly in any bag or rucksack.

Our USB-C cable with integrated bottle opener is the smart solution for modern lifestyles - efficient, stylish and always ready for the next adventure.
