Scope of delivery

- Advent calendar
- User manual

Warranty period

- 2 years

Create a warm, festive atmosphere in your home with this Advent calendar. Made from robust wood, the Advent calendar offers a durable and environmentally friendly solution for your festive decorations.

In the centre of the calendar is a lovingly designed motif, which is highlighted by the integrated LED lighting. The warm white LEDs set the scene for the motif and create a cosy atmosphere. There are 24 small boxes arranged around the central motif, each measuring 4x4 cm. These offer enough space to hide a small surprise or gift.

The Advent calendar is very easy to use. The boxes are easy to fill and open, and the LED lighting is powered by 2 standard AA batteries. This means you are flexible in the placement of the calendar and not dependent on a power socket.

With its timeless design, the Advent calendar fits perfectly into any interior and will be an eye-catcher in your living room, hallway or office. Let yourself be enchanted by this unique Advent calendar and enjoy the anticipation of Christmas. Its lovely details and atmospheric lighting make it an integral part of your festive decorations during the most beautiful time of the year.
