

Highlights

- **3 wind modes**
Normal, natural, sleep
- **3 in 1**
Air cooling, cleaning and humidification
- **3 speed levels**
low, medium, high
- **Simple operation**
on the device or with the remote control

Swivelling function

The swivelling function distributes the cooled air optimally to all areas of the room.

Cooling effect

Cools the room air by up to 8°C.

Refreshing 3in1 air cooler

with air purification and humidification function

The powerful air cooler provides pleasant cooling in your home.

Thanks to the innovative, natural cooling technology, the device is energy-saving and emits cooled and purified air into the room. Ideal for living areas where expensive air conditioning is not necessary.

3 speed levels combined with the various functions (cooling, ventilation) give you complete freedom over the intensity of cooling.

Climate-friendly operation

This type of cooling is a completely natural and cost-effective cooling method. Air coolers reduce the room temperature using the natural principle of water evaporation.

Air cooling & honeycomb filter

Air coolers draw in the heated room air on one side and then pass it through a honeycomb filter containing cold water as a coolant. The water in the cooling system slowly evaporates and absorbs heat from the room air flowing through. A fan then blows the now cooler room air back into the room.

Air purification & humidification

In addition to cooling the air, the air cooler differs from conventional fans in that the air is humidified and purified. After the summer season, the appliance can also be conveniently used as a humidifier.

Cover with honeycomb filter

Remote control

Air purifier

The air drawn in is cleaned by the filter. Dust, pollen, mites, bacteria and unpleasant odours are filtered out of the air.

Scope of delivery

- Air cooler
- Cooling batteries (2x)
- Remote control incl. battery (CR2025)
- Operating instructions

Warranty period

- 2 years

Specifications:

- Power consumption: 65 watts @ 220V~240V/50Hz
- Water tank capacity: 20 litres
- Air circulation: 588 m³/h
- Three speed settings and swivelling function
- Wind modes: normal/natural/sleep
- Robust housing with castors
- Colour: white

Dimensions:

- Product (W×H×D): 370×690×320 mm
- Packaging (W×H×D): 415×760×365 mm
- Net/gross weight: 7.1 kg / 9.4 kg
